

PRESS CARDS

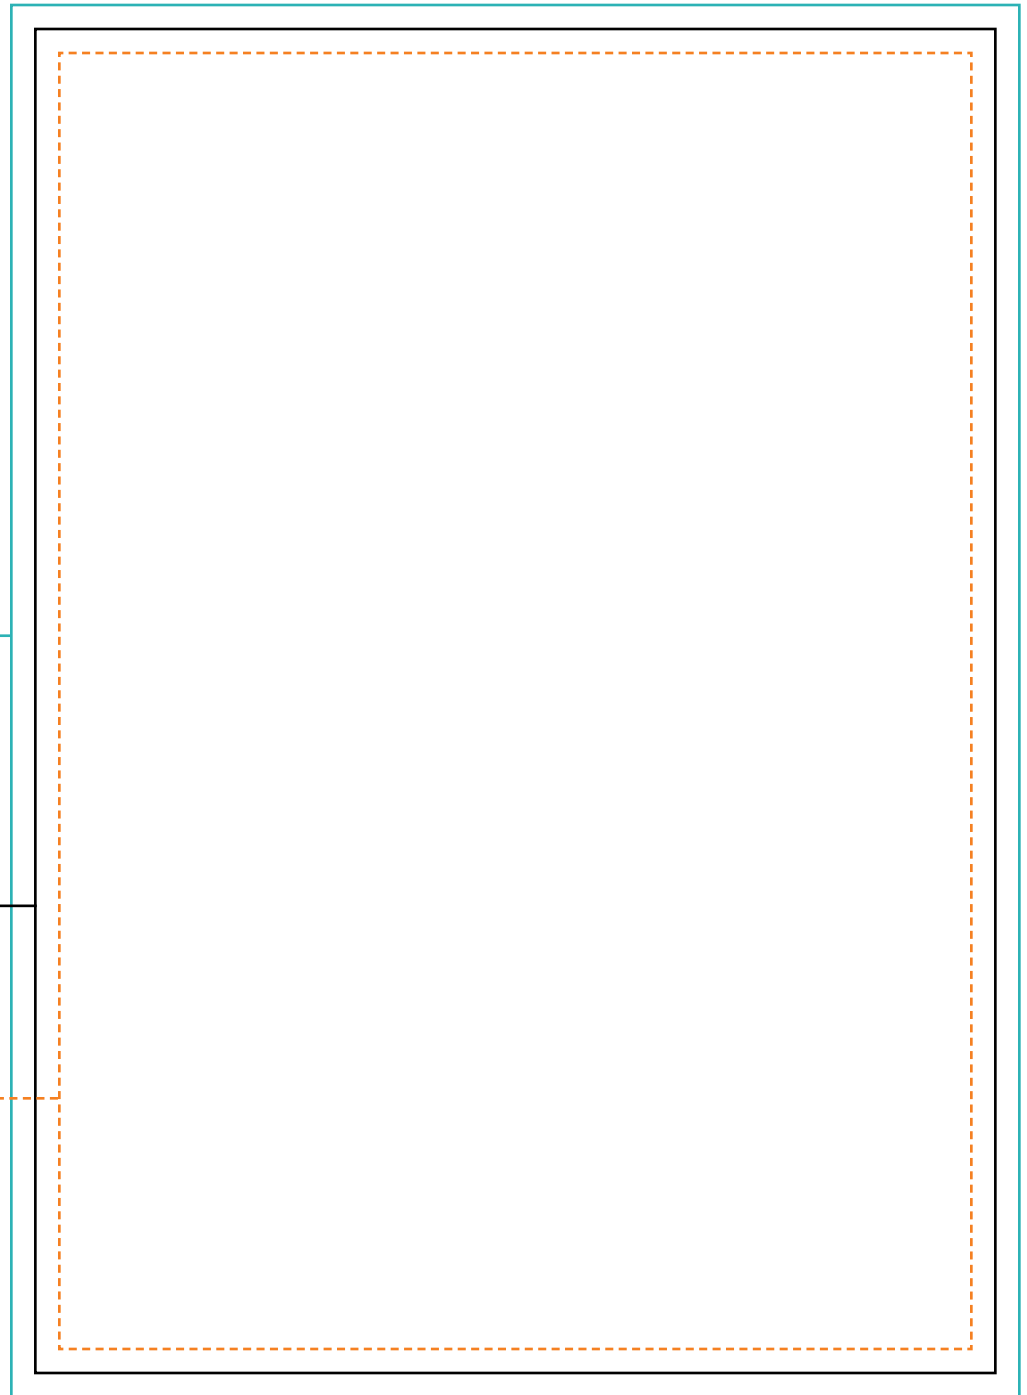

PLEASE NOTE:

When designing your Press Cards, please be sure all important content is located within the safe zone!

BLEED: The area of a Print or product that will be trimmed off, to account for a small amount of movement during the finishing process.

TRIM: The line along which the final product will be cut.

SAFE ZONE: The area inside of which all important content must be located. Any content within this space will be printed, and anything outside of it may be trimmed off.
